Subject: G-I Consent Decree and Statement of Work

Joel -- Here is our latest draft. Cross-references and paragraph numbers may be inconsistent. We continue to coordinate comments from members of the team. We are likely to have changes as these documents work their way through the EPA, DOJ, Vermont, DOI, and NOAA approval process, but I think we have addressed all of the substantive issues that are currently on the table. In particular, the technical team has worked to pull together a fairly complete SOW. I am in on Monday, but out on travel Tuesday and Wednesday next week. I will be checking email and returning calls. Have a good weekend. Dianne
